<b>SHADE TREES</b>	Guamo, Matarraton.
<b>USED FERTILIZERS</b>	Yara mila integrador, Produkafe, KCL
<b>USED AGROCHEMICALS</b>	Vertimec, VolianFlexi, verdadero

## FINCA HISTORY

The SANTA HELENA farm is a property that, given its extension (Two Hectares), has been managed and worked as a family business; Its previous owner had health problems, which is why he was forced to settle in another city; leaving the farm abandoned.

In 2013, Mr. JUAN PABLO PENAGOS decided to buy the estate; and to recover it. He organized the house again and settled there with his wife; with whom he works and manages that property.

JUAN PABLO, since his farm does not have the washing and drying systems, decided to take advantage of the opportunities offered by the PROCAFES Association, and so he became associated and began to process and market the coffee produced in SANTA HELENA, in partnership with FLOR DE APÍA.

Fruit of his family work, JUAN PABLO thanks to the support received from PROCAFES and FLOR DE APIA; today produces high quality coffee, which thanks to the commercial allies of Flor de Apia has reached international markets.

The logo for FLOR de APIA is displayed in a large, stylized font. The text 'FLOR de APIA' is white with a slight shadow effect, set against a pinkish-red background. The logo is framed by a yellow border with a scalloped bottom edge. In the background, there are faint coffee beans and a circular emblem with the word 'Coffee' written in a cursive font.
