

SITIO SÃO RAFAEL

ABOUT THE FARM:

The property was acquired by Ari Barbosa, Marcos Giovanni's father in the 70s, while still working as a metallurgist in Sao Paulo. After he retired, Ari returned to his hometown, Bueno Brandao. With the help of relatives and neighbors, he planted his first crop and over the years he acquired neighboring properties.

Mr. Ari gave a part for his son to work and currently, in addition to coffee farming Marcos Giovanni has greenhouses for the production of hardwoods in a hydroponic system and strawberries in semi-hydroponic systems, supplying schools, supermarkets and retail chains.
