

# SITIO BELA VISTA

## ABOUT THE FARM:

Luiz Carlos inherited the property that is in its 4th generation of family succession.

At that time, the property had no coffee planted, only pasture and other crops such as potatoes, corn and beans.

Over the years and at the insistence of his wife Clelia, Luiz Carlos began to plant the first plots. Currently, farming is carried out by Luiz Carlos and his son Lucas. During the harvest the neighbors (most of them relatives) form groups that exchange days of service.
