

# SANTA IZABEL

## ABOUT THE FARM:

Located in the south of Minas Gerais, Santa Izabel farm has always been recognized for the high quality of its coffees. In 2013 acquired by Nobletree Coffee Farms from its former owner Marco Suplicy, the farm underwent renovations and in 2017 began to reap its new fruits.

In 2017 his bourbon plantation was present at the cup of excellence, in addition to the planting of the icatu variety in 2013 which placed the Santa Izabel farm 11th place in the pulped-natural category in 2015.

Now, as the older sections are being renovated, the focus is on renewal. Currently the farm has 40 different varieties to test which coffees will taste the best and produce the best for the coming vintages. Santa Izabel farm adopts good social environmental practices and preserves the quality of each crop, as well as courses and workshops for small producers in the region. Strengthening your ties and helping them find the best buyers.
